SURVEILLANCE

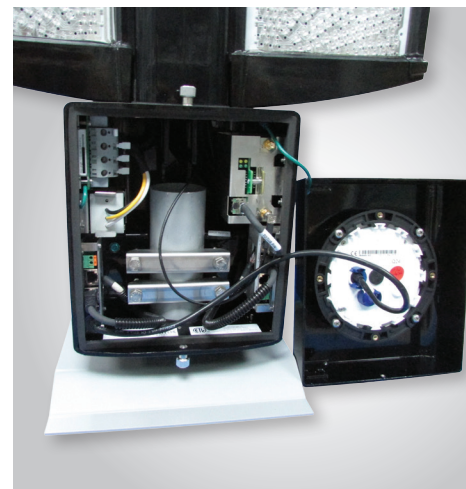

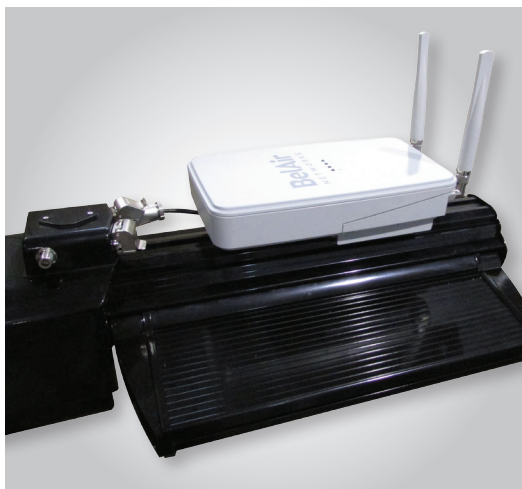

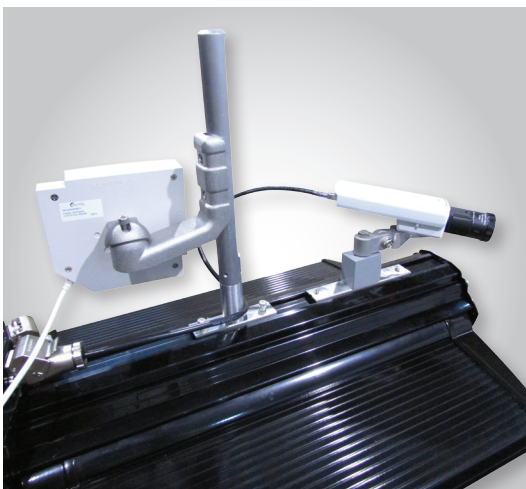

TOTUS TECHNOLOGY

Energy Saving LED Lighting, Emergency Two-Way Communications, Sensor Technologies and IP Video Surveillance. There is no comparable all-in-one solution today. Many different products must be field integrated to produce similar capabilities. The key security concerns are addressed with one simple to install and low cost solution.

- TOTUS Security Platforms™ provide up to 70% energy savings versus legacy streetlights through the use of improved LED technology.
- TOTUS Security Platforms™ awarded as “Best in Outdoor Perimeter Protection” by SIA’s NPS, “Best in Outdoor Lighting Based Security Platforms” by GOVIES, “New Product of the Year” by Security Products, “Security’s Best” by ASIS Accolades and received “Top Innovative Technology Honor” from Security Sales and Integration.

Flexible Mounting Options with Outdoor PoE

Embedded Radio Options & PoE

THE BENEFITS OF TOTUS TECHNOLOGY:

- Superior Night-Time Color Rendition
- 60,000 to 100,000 – Hour Life Cycle
- Active Deterrence™ via Event Action Processing
- Extend Security Coverage to Unprotected Areas
- Continuous 360° Video Recording
- One or Two-Way Audio Communications
- Analytics-Triggered Lighting Control and Audio
- Embedded PoE Switch and External Device Mounting Options
- Edge Based Multi-Media Storage
- Integrates With and Extends Existing Surveillance
- Rapid Deployment and Low Total Cost of Ownership
